

INDEPENDENT LAB RESULTS PROVE WAVE® Auto Dishwasher Gel TWICE AS EFFECTIVE as Cascade®

Reason for Analysis

Comparative testing and evaluation of the samples from the viewpoint of overall cleaning performance and physical characteristics

Summary

When tested per client instructions, both samples of Gel Dishwasher Detergents are rated as **Good** and they both demonstrate generally comparable performance and consumer serviceability. Both samples performed generally comparably in tests for spotting, filming, and soil removal for one full cycle in the automatic dishwasher. Per client request, the **Cascade® sample was tested by placing 20 grams of product into BOTH dispensing cups, PLUS A RINSE INHIBITOR in the appropriate dispenser, while the Wave® sample was tested by placing 20 grams of the gel into only ONE dispenser cup, with NO RINSE INHIBITOR added due to the Wave sample having a rinse inhibitor incorporated into the product.**

Cleaning Performance

Wave® as tested by an independent consumer testing laboratory has been evaluated as comparable in performance to Cascade® while **using half as much** and without any of those harmful ingredients.

The Results are in...

| | Wave® 2X | Cascade® |
|--------------|------------------|-----------|
| Spotting | None | None |
| Filming | None | None |
| Soil Removal | No Traces | No Traces |
| pH | 5.5 | 11 |
| Scent | Organic Lavender | Lemon |

**NOW DfE
CERTIFIED**

Healthiest for you, your family and the planet
