

Earth Friendly Products will create products for home and personal use that are derived from replenishable resources.

We pledge to provide our customers with products that will provide efficacy, value, and are environmentally responsible.

We will never test on animals or use animal ingredients in our products.

And we will conduct our business in a socially responsible manner that safe guards the earth, and all its inhabitants.

# HOW MANY REASONS DO YOU NEED

to use healthier  
pet cleaning products

EARTH FRIENDLY PRODUCTS PRESENTS

# natural pet care

Since 1993 Earth Friendly Products has been providing healthier, safer alternatives in household cleaning products. To celebrate our 10th Anniversary, we want to give pet owners this same new, healthful choice in pet cleaning products.

Our products are safe for your pet, for you and for the environment because we use only 100% natural, non-toxic ingredients, nature's way of dissolving organic wastes, stains and odors. The enzymes contained in our formulas occur naturally, and are responsible for keeping forests and streams clean despite tons of organic wastes from dead trees, plants, animals, insects and birds. Enzymes digest and liquefy dead organic material the same way enzymes digest foods we eat.

Our Natural Pet Cleaning Products are strong, but gentle enough to be used on almost everything: fabrics, carpets, tile, upholstery, rugs, floors, furniture, metals and ceramics. We are so confident in the superior performance of our Natural Pet Formulas that they are 100% Guaranteed!

Thank you for buying Earth Friendly Products.

How many reasons do you need?
