Show Off Your Finest With Confidence

Earth Friendly Products' All-Natural Silver Polish Will Make Your Silver Look Good and Your Guests Feel Better

Winnetka, IL – Earth Friendly Products, the leader in 100% eco-friendly cleaning products, is excited to announce their latest product – Silver Polish. Earth Friendly Products' plant derived Silver Polish is an all-natural deep cleaning agent that produces an illustrious shine and will leave your finest silver without scratches, stains or etches.

Like the complete line of Earth Friendly Products, Silver Polish is formaldehyde-free, phosphate-free, chlorine-free, biodegradable, septic safe, greywater safe and made with only the finest natural ingredients. Earth Friendly Products' Silver Polish has the lowest PH of all silver polishes on the market.

When it's time for entertaining for the holidays or any occasion, Earth Friendly Products' Silver Polish is the perfect all-natural way to clean your finest silver. Silver Polish is simple to use and only requires a damp cloth, a rinse and a bit of drying to create an impressive shine on your best silver. Your guests will be impressed by the sheen and you can take pride in knowing that you took another step towards saving the environment and protecting your loved ones from ingesting harsh chemicals typically found in other silver polish cleaning products.

“Since 1993, Earth Friendly Products has been committed to providing high quality cleaning products that are safe for our families, our pets and our environment. With the launch of Silver Polish, we continue to uphold these standards and raise the bar even higher,” said John Vlahakis, President of Earth Friendly Products.
